PROFESSIONAL SUMMARY

Senior Frontend Engineer and Team Lead with 8+ years building production web and mobile applications across fintech, e-commerce, edtech, and healthcare/compliance. Specialist in React, Next.js, React Native, and enterprise TypeScript, with a focus on strongly-typed API contracts, mock-first delivery, and reusable design systems that cut runtime errors and speed up teams. Led a cross-functional team of 11 across frontend, backend, AI, DevOps, and QA, and recently built a full NDIS compliance platform (web admin, mobile app, and landing site) solo in under two months, including payroll/Xero sync and AI-assisted workflows. Known for shipping mission-critical features fast and clearing production backlogs quickly.

SKILLS

Frontend	React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, SASS, Framer Motion, Redux, Zustand, TanStack Query
Mobile	React Native (Expo, TypeScript), Flutter & Dart — apps shipped to Google Play & App Store
Backend	Node.js, Express.js, REST APIs, MongoDB
Testing	Jest, React Testing Library, Cypress, Mocha
DevOps	GitHub Actions, CI/CD, Docker, EAS build & deploy
Integrations	Xero, Monnify, Paystack, Fez Delivery, LiveKit, third-party AI services
Practice	Architecture reviews, code-review culture, mentorship, Agile / Scrum

PROFESSIONAL EXPERIENCE

Senior Frontend EngineerMay 2026 – Aug 2026

Vorda — NDIS compliance & operations SaaS · Remote

- Built a web admin platform (Next.js 16, React 19, TypeScript, Tailwind v4) and a worker mobile app (Expo / React Native) for an NDIS disability-services provider, from scratch against a live REST API, **in under two months**.
- Architected a **mock-first frontend** (MSW + feature flags) that let the UI ship ahead of backend delivery, then flip section-by-section to live data with no rewrites.
- Designed a **shared, strongly-typed API-contract package** consumed across web and mobile, catching integration drift before runtime.
- Delivered participant onboarding, worker credential/document management, rostering, **payroll with Xero synchronisation**, and invoicing.
- Integrated an **AI service** for progress-note generation and incident analysis through a secure server-side proxy.

Development Team LeadFeb 2026 – May 2026

Kuve — services & e-commerce marketplace · Remote

- Led a cross-functional team of 11** (3 frontend, 4 backend, 1 AI, 1 DevOps, 2 QA), owning frontend architecture, technical direction, and code-review standards.
- Cleared the entire production issue backlog within 2 weeks**, stabilising the shopper and admin platforms.
- Integrated **Fez Delivery** for automated logistics and fulfilment in 2 weeks.
- Rebuilt the standalone-store platform in 3 weeks**, enabling registered shoppers to launch their own branded storefronts.
- Delivered the **shopper KYC verification** flow in 2 weeks.
- Built marketplace features (categories, featured & popular providers, cart, product requests) with typed service layers and a shared component library.

Senior Frontend DeveloperOct 2024 – Feb 2026

StakeStack AI · Full-time · Remote (US)

- Led end-to-end development of an AI-powered course-creation platform, from architecture to deployment, on React, Next.js, and enterprise-grade TypeScript.
- Built a full course builder supporting both manual authoring and AI-generated content, with editing, publishing, and real-time engagement tracking.
- Designed strongly-typed APIs and shared TypeScript interfaces across frontend and backend, **reducing runtime errors by 40%**.
- Coached developers on advanced TypeScript patterns (discriminated unions, utility types, custom hooks), lifting code quality across the team.

Senior Frontend Developer Jun 2023 – Oct 2024

BlooCode Development · Contract · Remote

- **FirstBank Collection System:** built real-time loan-tracking dashboards in React and strict TypeScript, with typed service layers and automated alerting for a top-tier Nigerian bank.
- **Paywithfish:** engineered a cross-border payments platform with strongly-typed financial models to eliminate currency-calculation errors.
- **Wokpa:** shipped a LiveKit-integrated video-meeting platform with typed WebSocket events and real-time communication interfaces.
- Delivered admin platforms, live streaming, and newsroom dashboards for Lendo Credit, Africa News Agency, and Africa Business Radio, standardising UI via shared TypeScript component libraries.

React Native Developer Nov 2023 – Nov 2024

Swap Space · Contract (part-time, concurrent) · Remote

- Led mobile frontend architecture in React Native + TypeScript; migrated legacy JavaScript codebases and built shared web/mobile component libraries.

React Native Developer Apr 2023 – May 2023

NaijaCP · Contract · Remote

- Delivered a cross-platform mobile app with Paystack payment integration through typed service layers and strict linting.

JavaScript / TypeScript Developer Dec 2020 – Feb 2022

Yip Online · Remote

- Migrated major parts of the Powpa.com platform from JavaScript to TypeScript and introduced typed state management and API layers.

Frontend Developer — Junior to Mid-level Late 2017 – 2020

Emaris · Nigeria

- Progressed from Junior to Mid-level Frontend Developer, building production web interfaces in JavaScript and React and establishing the engineering fundamentals behind later architecture work.

SELECTED NDA PROJECTS

Healthcare and fintech dashboards built on TypeScript-heavy frontend architectures with enterprise-grade code standards.
